

# Atlas Elisa Kits

Atlas Medical offers a range of Enzyme Linked Immunosorbent Assay (ELISA or EIA) to detect major hormones in the fields of thyroids and fertility in serum. The kits feature high sensitivities, simple and robust methods, breakable well strips, quantitative results, ready-to use liquid reagents, and reasonable assay time. The assays can be used on most open ELISA manual readers and washers as well as open ELISA auto-analyzers. Kits are packed in sizes of 96 tests.

## Features:

- Reliable and accurate results.
- Easy to follow instructions.
- Suitable for both manual and automated methods.
